Online Listings Management

Get found faster with accurate and protected online listings across the 40+ most important websites. Gain better search visibility by claiming your Google My Business™ and ensuring your business information is up to date.

Includes Amazon Alexa for voice search.

Google My Business™ Optimisation

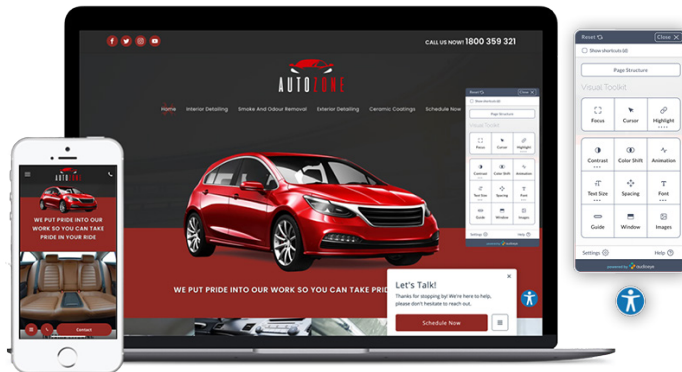

Optimise your Google My Business listing and improve engagement, boost your local ranking, convert more customers and get chosen over competitors. GMB Optimisation provides daily management and performance of your listing from our expert service team with detailed analytics. Includes the alignment of your GMB Profile with your Website to enrich content that helps improve search and an 8-Point Optimisation to keep your profile full and complete. GMB Optimisation helps consumers to better discover your business in keyword searches, call you, visit your website, research your products and services or book an appointment online with less clicks!

Enhanced Accessibility

We partner with industry leader, AudioEye, to give you peace of mind ensuring your site includes accessibility features to help maintain ADA standards, regardless which state your business is located. Our Managed Service includes Accessibility Warranty backed by \$1000 liability credit, ongoing releases and improvements and trusted certification on your site. The Visual Toolkit added to your site allows visitors to click to access easier by increasing text, changing font, change colors, adding reading guides and more.
